

AMENDMENT

ATTORNEY DOCKET NO. Q65778

U.S. Appln. No. NOT YET ASSIGNED

while the first piece is being replayed by one player, the head of the next piece (second piece) is searched for in the other player and the disk rotating speed of the other player is controlled such that replay of the second piece can be started at the time replay of the first piece has been completed.

5 X. (New) A disc player connectable <sup>to</sup> a mixing apparatus which is capable of mixing two audio signals and has an operating part for adjusting a mixing level, said disc player comprising:  
an outputting part which outputs an audio signal read from a disc; a memory for storing a designated address position; and a controller which performs a control position to start a reproduction operation when an instruction to start reproduction is received from said mixing apparatus and stop the reproduction operation and to move a pickup to an address position stored in said memory to stand by when an instruction to stop reproduction is received from said mixing apparatus.

REMARKS

Entry and consideration of this Amendment is respectfully requested.

Respectfully submitted,
